

Municipal

Bethlehem Town Hall - Bethlehem, New York

We provided design services for additions and renovations to the existing town hall. As a result, the facility offers increased handicapped accessibility and improved public safety.

Montgomery Transfer Station - Amsterdam, New York

We provided design services for this waste transfer station and scale house. The facility is located at a solid waste landfill.

Saratoga Public Building - Saratoga Springs, New York

Preparation of a study for proposed construction of a new public safety building, including investigation of existing programming and needs.

Rensselaer County Jail - Troy, New York

Feasibility plan and master plan for additions and alterations for proposed reuse of a former county health building to house minimum security prisoners.

Cohoes Fire Station - Cohoes, New York

Renovations of existing fire station.

Schaghticoke Town Hall - Schaghticoke, New York

New construction of a municipal town hall including a courtroom, offices and public meeting space.

Sand Lake Municipal Center - Sand Lake, New York

Design of a new building to house the new town library, Town Hall, and community meeting rooms.

City of Saratoga Springs - Saratoga Springs, New York

Design and implementation of building and street restoration program in two national registered districts: Broadway and Franklin Square. This project was among the first and longest lasting main street facade improvement programs in the nation. As such, it was recognized as a national model. (In association with Feibes & Schmitt)

Delaware County Community Redevelopment Plan - Delaware County, New York

Master planning and schematic design for the revitalization of buildings and streetscape in the historic centers of three communities in the Catskills: Stamford, Sidney, and Margaretville.

Onondaga County War Memorial Convention Center Complex - Syracuse, New York

Master plan and preliminary design that replaced an earlier plan as the proposal for facility expansion and reuse. The project used vacant land and existing historic buildings on three urban blocks for a new arena, convention center, hotel, and office complex. Our plan resulted in a more serviceable facility, protected a National Register-listed building and provided substantial savings for our client's landmark building.
